WHAT IS FIRE LIKE?

Předmět: Anglický jazyk

Ročník: Požární ochrana – 1. ročník

Jméno autora: Mgr. Radka Vorlová

Škola: SPŠ Hranice

Anotace: Reading and speaking activities connected to the topic What is fire like?

Klíčová slova: fire, firefighters, firefighting, fire, what is fire like?

Autorem materiálu a všech jeho částí, není-li uvedeno jinak, je Mgr. Radka Vorlová

Financováno z ESF a státního rozpočtu ČR.

WHAT IS FIRE LIKE?
(Student's worksheet)

Read four short texts below and write the proper adjective which best describes what fire is like.

Slow	cheap	quiet	fast	relaxing	friendly	lively
Stressful	crowded	deadly	hot	interesting	cold	dark
Expensive	safe	old-fashioned	small	cool		

Fire is _____!

There is only little time for escaping! It takes less than 30 seconds a small flame can get completely **out of control** and become great fire. The smoke spreads to the whole house in several minutes. Most **deadly** fires occur when people sleep. If you wake up to a fire, you have no time to take money or valuable things because fire spreads too quickly and the smoke is too thick. There is only time to **escape**.

Fire is _____!

Heat is more dangerous than flames. Heat can kill as well as the fire. There can be temperature of 100 degrees in the room at floor level and can be up to 600 degrees at eye level. Breathing in this hot air will damage your lungs. This heat can melt clothes to your skin. In five minutes, a room can get so hot that everything in it **ignites** at once: this is called **flashover**.

Fire is _____!

Fire starts **bright**, but quickly changes into black smoke. If you wake up to a fire you can become blind and you won't be able to find your way out.

Fire is _____!

Smoke and toxic **gases** have killed more people than flames. The odourless, colourless **fumes** can **lull** you into a deep sleep before the flames reach your door. You don't wake up in time to escape.

TASK: Describe what fire is like in your own words.

1 Explain why we can describe fire as FAST:

2 Explain why we can describe fire as HOT:

3 Explain why we can describe fire as DARK:

4 Explain why we can describe fire as DEADLY:

WHAT IS FIRE LIKE?
(Teacher's worksheet)

Read four short texts below and write the proper adjective which best describes what fire is like.

Slow	cheap	quiet	fast	relaxing	friendly	lively
Stressful	crowded	deadly	hot	interesting	cold	dark
Expensive	safe	old-fashioned	small	cool		

Fire is FAST!

There is only little time for escaping! It takes less than 30 seconds a small flame can get completely **out of control** and become great fire. The smoke spreads to the whole house in several minutes. Most **deadly** fires occur when people sleep. If you wake up to a fire, you have no time to take money or valuable things because fire spreads too quickly and the smoke is too thick. There is only time to **escape**.

Fire is HOT!

Heat is more dangerous than flames. Heat can kill as well as the fire. There can be temperature of 100 degrees in the room at floor level and can be up to 600 degrees at eye level. Breathing in this hot air will damage your lungs. This heat can melt clothes to your skin. In five minutes, a room can get so hot that everything in it **ignites** at once: this is called **flashover**.

Fire is DARK!

Fire starts **bright**, but quickly changes into black smoke. If you wake up to a fire you can become blind and you won't be able to find your way out.

Fire is DEADLY!

Smoke and toxic **gases** have killed more people than flames. The odourless, colourless fumes can **lull** you into a deep sleep before the flames reach your door. You don't wake up in time to escape.

TASK: Describe what fire is like in your own words.

1 Explain why we can describe fire as FAST:

2 Explain why we can describe fire as HOT:

3 Explain why we can describe fire as DARK:

4 Explain why we can describe fire as DEADLY:
