INVESTICE DO ROZVOJE VZDĚLÁVÁNÍ

Anotace

Pracovní list slouží k procvičení kladení doplňovacích a zjišťovacích otázek a jejich zodpovídání, a to se zaměřením na přítomný čas prostý. Žáci nejdříve odpovídají na otázky týkající se textu a popisu denního režimu chlapce, načež pak sami kladou otázky svému partnerovi a tvoří tak základní dialog ke zjištění informací. V dalších cvičeních si pak připomínají typické časové výrazy a příslovce četnosti. Druhá část pracovního listu je pak určena ke konverzačnímu skupinovému kladení a zodpovídání otázek za užití přítomného času prostého a slovesa být.

Wh- questions in the present simple

Nick Martin is from Osaka. He is 11 years old. He gets up at quarter past seven every morning and he always gets dressed straightaway. He has breakfast at seven o'clock and he listens to the radio. Then he has a shower and he brushes his teeth. He always leaves home at half past seven and he takes the bus to school at five to eight. He goes to Label Primary School.

After school he goes swimming twice a week or has a guitar lessons on Wednesdays and Fridays. When he gets home, he normally has toast and a glass of orange juice. He often invites his friend Tom. He usually does his homework before dinner. The Martins have dinner at half past six.
